2012 COMMISSION ON FINANCIAL AID CONSOLIDATION AND MODERNIZATION

Summary of Meeting – Friday, May 18, 2012

At the May 18, 2012 meeting, the Commission introduced members and reviewed a memo from the HEAB Executive Secretary regarding the charge of the Commission. The memo also included the Executive Secretary's observations regarding the potential scope of the Commission's deliberations. In subsequent discussion of the Commission's scope, Commission members expressed their own observations about possible topics and directions for the Commission.

The Commission agreed that members would send their own observations to HEAB for consolidation into a document that would serve as a guide for discussion of the Commission's scope, and that this document would be available for the Commission's second meeting.

The Commission also noted the role of the 2010 Legislative Council Special Committee on Review of Higher Education Financial Aid Programs, and asked that for the next meeting a briefing be presented on the recommendations of the 2010 Committee.
